

AllerGzyme™

Supports digestion of gluten and other problematic proteins*

AGZ060 | 60 Vegetarian Capsules

AllerGzyme™ is a specialized blend of digestive enzymes designed to support the digestion of gluten and other problematic proteins, as well as certain carbohydrates that may be associated with occasional gas or bloating.* It is intended for people who experience occasional digestive discomfort after eating everyday foods, such as wheat, dairy, soy, eggs, nuts, fish, beans, lentils, peas, or certain vegetables.* AllerGzyme™ is especially helpful when eating away from home, when ingredient lists are unknown, or when occasionally enjoying foods that may be more difficult for some people to digest.* It is not intended for individuals with celiac disease or wheat allergies.*

GASTROINTESTINAL HEALTH*

Supports digestive comfort*

Supports protein digestion and nutrient absorption*

Supports the digestion of gluten and other difficult-to-digest proteins found in dairy and soy*

May support a healthy inflammatory response*

May help those experiencing occasional gas or bloating associated with intake of beans, lentils, and certain vegetables*
