

Berberine-Evail™

400 mg Highly Bioavailable Berberine

○ BEV060 | 60 softgels

Blood sugar issues are common and may present as afternoon fatigue, intense sweet cravings, brain fog, or endless hunger. Berberine-Evail™ features 400 mg of highly bioavailable berberine to support normal blood sugar, fat, and insulin metabolism, which may promote healthy weight management and cardiovascular health.* Berberine-Evail™ supports metabolic health by supporting the body's normal glucagon-like peptide 1 (GLP-1) secretion, which may help promote healthy weight management.* Taken from plant sources, berberine may also promote a healthy and diverse microbial environment, which supports health starting in the gut.*

ENDOCRINE/METABOLISM*

Promotes healthy blood sugar, fat, and insulin metabolism*

Helps support normal glucagon-like peptide-1 (GLP-1) secretion*

Supports cardiovascular health*

Supports gut microbial balance*

May help support healthy weight management*

Supplement Facts

Serving Size 1 softgel	
Amount Per Serving	% Daily Value
Berberine (as Berberine HCl)(<i>Berberis aristata</i>)(root)	400 mg *

*Daily Value not established.

Recommended Use: Take 1 softgel twice daily with a meal, or as directed by your health-care practitioner.

Warning: Work with your physician to monitor your blood glucose levels, as medication for blood sugar regulation may require adjustment to account for the effects of berberine.

To gain an in-depth view of your individual biochemistry and metabolism, talk with your health-care practitioner about *Designs for Health Metabolomics Spotlight™* functional wellness testing.

JUST THE FACTS:

Compare supplement facts to the leading brands

- **Berberine** – Berberine is a botanical extract from the root of the Indian barberry plant, also known as tree turmeric. May help support normal blood sugar metabolism, insulin function, and may help promote healthy weight management.* Berberine may also promote gut microbial balance.*
- **Designs for Health's Evail™ technology** – Combines quillaja extract, delta- and gamma-tocotrienols, sunflower lecithin, and medium-chain triglycerides (MCTs) for enhanced nutrient absorption and bioavailability of berberine, without the use of potentially harmful surfactants.
