Bone Broth Protein

Collagen-Rich Beef Protein Isolate from Grass Fed Swedish Cows

PPPCHC PPPUNF PPPVAN | Net Wt. 28.6 oz (1.8 lbs) 810 g

PPPCSH | 14 - 0.95 oz (27 g) Packets

Looking for a high-quality, dairy-free protein powder? Bone Broth Protein features HydroBEEF™ — a pure, collagen-rich bone broth protein made from grass-fed Swedish cows. It's easy to digest and absorb, and it provides amino acids (the building blocks of protein) and collagen naturally found in beef to support healthy muscle mass, body composition, and protein status.*

All three flavors are available in convenient 30-serving tubs. The chocolate flavor is also offered in single-serving packets for easy, on-the-go travel.

FOUNDATIONAL HEALTH*

- Supports optimal protein status*
- Supports healthy muscle mass and function*
- Supports healthy collagen status*
- Supports healthy body composition*
- May help support fitness performance*
- Helps promote muscle, cartilage, and ligament health*

Chocolate Flavor

Supplement Facts

Serving Size 27 grams (one packet or approx. one scoop)

Ingredients: Bone broth collagen protein (HydroBEEF™).

JUST THE FACTS: Compare supplement facts to the leading brands

- **HydroBEEF™**
  - Provides 21 to 26 grams of protein per serving (depending on the flavor)
  - Made from grass-fed Swedish cows raised without hormones or GMOs
  - Contains all essential amino acids and collagen-building blocks naturally found in beef
  - Over 95% protein with a high protein nitrogen score (over 100), suggesting high protein usability
  - Contains an average of 78% to 84% hydrolyzed collagen, with the remaining percentage represented by the meat of hydrolyzed beef
  - Hydrolyzed for enhanced digestion and absorption
  - Available in vanilla and chocolate (sweetened with stevia), or unflavored and unsweetened

Recommended Use: Mix 27 grams (one packet or approx. one scoop) in 8 ounces of water or any other beverage per day or as directed by your health-care practitioner. Use a blender or shaker bottle, and shake or mix well. For best blending results, liquid should be at room temperature.

Consult with your health-care practitioner about your specific circumstances and any questions you may have.
