BroccoProtect™

Broccoli seed extract with myrosinase

BPT090 | 90 vegetarian capsules

BroccoProtect™ provides concentrated broccoli seed compounds that support the body's natural detoxification systems and cellular resilience.* It includes OptiBroc® broccoli seed extract, a source of glucoraphanin found naturally in broccoli. Glucoraphanin can be converted by the body into sulforaphane.* Sulforaphane supports cellular resilience, redox balance, and healthy detoxification processes.* Research suggests it may also support normal hormone metabolism, including healthy estrogen clearance.* BroccoProtect™ also includes mustard seed extract, which provides myrosinase, an enzyme that helps convert glucoraphanin into sulforaphane.* Many people do not consume enough cruciferous vegetables. Cooking these foods can reduce myrosinase activity. In addition, some individuals may naturally produce lower amounts of this enzyme. Including myrosinase in this formula helps support consistent sulforaphane production and activity.*

GLUTEN FREE FORMULA · DAIRY FREE FORMULA · SOY FREE FORMULA · VEGAN FORMULA · NON GMO INGREDIENTS

LIVER/DETOXIFICATION*

- Supports healthy detoxification pathways*
- Supports antioxidant status and cellular resilience*
- Supports healthy estrogen metabolism*

Supplement Facts

Serving Size 1 capsule
Servings Per Container 90

Amount Per Serving		% Daily Value
Broccoli Blend	235 mg	*
(OptiBroc® Broccoli Extract (*Brassica oleracea*) (seed) [standardized to 13% glucoraphanin], Mustard Extract (*Sinapis alba/Brassica hirta*)(seed) [yielding 24 mg of sulforaphane glucosinolate, 5 enzyme units of myrosinase])		

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), dicalcium phosphate, vegetable stearate, ascorbic acid, silicon dioxide.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Consult with your health-care practitioner about your specific circumstances and any questions you may have.

JUST THE FACTS:

Compare supplement facts to the leading brands

- **OptiBroc® Broccoli Seed Extract –** Provides a standardized amount of glucoraphanin, the natural precursor to sulforaphane, to support detoxification, antioxidant status, and healthy estrogen metabolism*
- **Mustard Seed Extract –** Provides the enzyme myrosinase to help convert glucoraphanin into the active compound sulforaphane for more consistent support*
