

Cannab-FS™ Hi-Po

1,500 mg Full Spectrum Phytocannabinoids
and 180 mg Terpenes per Bottle

CBFHPO | 1 fl oz (30 mL)

Cannab-FS™ Hi-Po is a highly potent, one-stop shop for broad-spectrum phytocannabinoids, the beneficial compounds naturally found in the *Cannabis* hemp plant. Combining full-spectrum phytocannabinoids and terpenes provides a harmonious effect that enhances the product's health-promoting properties.* A well-known phytocannabinoid included in this product is cannabidiol, or CBD for short.

FOUNDATIONAL HEALTH*

Supports normal inflammatory responses*

Supports immune health*

Hemp-derived phytocannabinoid products are not for sale outside the U.S. or to the states of Idaho, Mississippi, Alaska, Louisiana, Utah, West Virginia, and South Dakota.

Note: This product is approved for sale in the State of Iowa - a copy of the Designs for Health registration can be viewed [here](https://www.dfhemp.com).

Consult with your health-care practitioner about your specific circumstances and any questions you may have.

Designs for Health offers a complete certificate of analysis showing proof of sourcing, purity, and a breakdown of phytocannabinoid content for each product lot number at [dfhemp.com](https://www.dfhemp.com).

JUST THE FACTS:

Compare supplement facts to the leading brands

- Full spectrum! Contains all the natural terpenes and phytocannabinoids found throughout the entire plant, including the flower, seeds, and stalk fibers. Some manufacturers only isolate CBD (without terpenes or other phytocannabinoids) from hemp, which does not work in the same capacity as the full spectrum.*
- Works harmoniously with phytocannabinoids, complementing their health-promoting properties.* Terpenes help enhance phytocannabinoids' ability to potentially promote normal pain and inflammatory responses and support immune system balance and overall mood.*
- Delivered in liquid form, infused in a base of organic cold-pressed hemp seed oil.
- Sourced from 100% American-grown hemp flowers.
- Contains less than 0.3% THC (tetrahydrocannabinol).
