

Grape Seed Supreme™

Polyphenol + Anthocyanin Blend

FOUNDATIONAL HEALTH

Grape Seed Supreme™ is derived from grape skin and seed extracts. It contains polyphenols and anthocyanins shown to be beneficial for many aspects of health, including support for the brain, skin, and blood vessels.* This formula is a unique combination of whole grape extract (similar to a nonalcoholic wine extract), grape skin powder, and a special grape seed extract (MegaNatural®-BP), all of which help to provide the vast array of benefits seen in studies on various grape or wine extracts.*

Grapes, including their skin and seeds, contain several bioactive polyphenols, including resveratrol and anthocyanins. These compounds support antioxidant status in the body and promote a healthy inflammatory response.* They also support healthy cholesterol metabolism by supporting the structure of lipoproteins, which are like rafts that carry cholesterol in the bloodstream. Lipoproteins may play a larger role than cholesterol in cardiovascular health. Grape polyphenols may also support healthy blood vessel elasticity and platelet function to support blood pressure already within the normal range.*

Benefits*

- Supports antioxidant status
- Promotes a healthy inflammatory response
- Supports cardiovascular health
- Supports brain health
- Supports normal cholesterol metabolism

Highlights

- MegaNatural®-BP grape seed extract, standardized to contain 90% polyphenols to support heart health and normal cholesterol metabolism*
- BioVin® grape extract, standardized to contain 75% polyphenols to support antioxidant status*
- Muscadine grapes to promote a healthy inflammatory response*

Recommended Use

Take 2 capsules per day with meals or as directed by your health-care practitioner.
