

ImmunoMod-A™

Curcumin, NAG, and Andrographis

IMMUNE HEALTH

ImmunoMod-A™ has been formulated to help promote a healthy inflammatory response, which is necessary to help maintain optimal immune function in the body.* It features ParActin®, an extract of the herb *Andrographis paniculata*, which has been shown to help modulate immune, inflammatory, and oxidative pathways.* This product also contains N-acetyl-D-glucosamine, along with Curcumin C3 Complex®, a blend of three bioactive curcuminoids derived from the turmeric root. These compounds help to support a healthy inflammatory response.*

Curcumin C3 Complex®, the curcumin in ImmunoMod-A™, features a blend of well-researched bioactive curcuminoids that support antioxidant status in the body and promote a healthy inflammatory response.* Andrographis has a long history of traditional medicinal use that supports immune function, including promoting a healthy inflammatory response.*

Together, the ingredients in ImmunoMod-A™ work to support the proper expression of the body's inflammatory processes to help maintain a normal immune response.*

Benefits*

- Supports immune function
- Promotes a healthy immune response
- Supports antioxidant status
- Supports a healthy inflammatory response
