

L-Glutathione Power™

Supports Normal Detoxification*

FOUNDATIONAL HEALTH

L-Glutathione Power™ provides a clinically relevant amount of glutathione, which is a powerful compound. Glutathione supports optimal cellular functioning, normal detoxification, and antioxidative status.*

Glutathione is a molecule consisting of three amino acids (cysteine, glutamine, and glycine). In the body, glutathione is considered to be the *master* antioxidant, and it is critical for the maintenance of antioxidative balance by helping to protect the cells from the effects of oxidative stress.* Glutathione also promotes the optimal function of detoxification pathways by helping to detoxify and eliminate toxins and other harmful substances from the body.*

The body may need increased amounts of glutathione during the aging process or during times of increased toxic burden and oxidative stress, as the body's ability to produce glutathione decreases with age and any prolonged use of alcohol, drugs, tobacco, and certain medications.*

L-Glutathione Power™ provides 1 g of glutathione in a convenient powder to help support antioxidative status, cellular and immune health, healthy aging, and a healthy inflammatory response.*

Benefits*

- Promotes healthy antioxidative status
- Supports normal detoxification
- Promotes optimal cellular function and repair
- Supports a healthy immune response
- Helps support healthy aging

Recommended Use

Take 1 gram (approximately one scoop) per day in water or as directed by your health-care practitioner.

Highlights

- Provides a clinically relevant amount of L-glutathione to support antioxidative status and optimal cellular health*
- Convenient powdered delivery
- Unflavored and unsweetened for optimal mixing with liquids
- Gluten-free, dairy-free, and soy-free
- Non-GMO
