

Liposomal Cat's Claw Synergy

Highly Bioavailable Immune Enhancing Formula with Monolaurin*

LPOCAT | 1.7 fl oz (50 ml) liquid

Designs for Health's Liposomal Cat's Claw Synergy provides a unique blend of ingredients featuring cat's claw, monolaurin, vitamin D, and lemon balm to support immune health and a healthy microbiome, which is the collection of all microbes that naturally live inside our bodies.* These nutrients and plant compounds are delivered in a convenient liquid formula using an innovative liposomal technology. Liposomes are small spheres made up of phospholipids, which are the primary building blocks of the outer walls of our cells. This allows liposomes to bond easily with cell membranes and deliver their cargo for easier absorption, starting in the mouth.*

IMMUNE HEALTH*

Supports a balanced immune response*

Helps promote antioxidant status*

Supports healthy inflammatory responses*

Promotes a healthy microbiome*

Supplement Facts		
Serving Size 1 mL (approx. 2 pumps)		
Servings Per Container 50

JUST THE FACTS:

Compare supplement facts to the leading brands

- **Vitamin D** - Supports immune system development and function*
- **Cat's claw** - Woody vine originating from the Amazon rain forest and other tropical areas of South America. It contains bioactive plant compounds supporting a healthy inflammatory response, antioxidant status, and immune health*
- **Monolaurin** - Derived from lauric acid, which is a fatty acid primarily found in coconut oil, palm kernel oil, and dairy. It promotes immune function and a healthy microbiome*
- **Lemon balm** - Helps support relaxation and promotes healthy immune responses to potential pathogens*
- **Phospholipids** - Derived from sunflower lecithin, provide liposomal technology to promote absorption and bioavailability
- **Stevia leaf** - Lightly sweetened with stevia for overall improved taste
