OEA Pro GLP-1™

Supports the body's natural GLP-1 activity to help maintain normal appetite*

OEA060 | 60 Vegetarian Capsules

OEA Pro GLP-1™ is a targeted formula designed to support your body's natural GLP-1 activity, metabolic balance, normal appetite, and weight-management goals.* It features oleoylethanolamide (OEA), a fat-based messenger molecule that is naturally occurring in your body and produced in the small intestine after you eat, especially after consuming oleic-acid-rich foods, such as olive oil, avocados, and nuts. OEA helps activate a sensor in the intestines, which helps the body release GLP-1, a hormone that supports fullness, healthy appetite signals, and blood sugar metabolism.* By supporting these natural metabolic-signaling pathways, OEA Pro GLP-1™ helps promote satiety and support fat-loss goals, healthy body composition, and weight management.* It also supports lipid balance, healthy insulin and blood sugar metabolism, gut health, and healthy inflammatory responses.* This formula may be especially useful when appetite begins to return after a period of suppressed caloric intake or for the maintenance stage of weight-management programs.*

GLUTEN FREE FORMULA · DAIRY FREE FORMULA · SOY FREE FORMULA · VEGAN FORMULA · NON GMO INGREDIENTS

ENDOCRINE/METABOLISM*

- Supports the body's natural GLP-1 activity, promoting satiety to help you feel fuller for longer*
- Supports healthy weight and body composition*

Warning: Do not use if pregnant or breastfeeding.

JUST THE FACTS:

Compare supplement facts to the leading brands

- **Oleoylethanolamide (OEA) –** A fat-based messenger that occurs naturally in the body. OEA supports the body's natural GLP-1 activity, which promotes healthy appetite signals, satiety, gut-brain communication, and healthy fat and blood sugar metabolism.* OEA also supports healthy inflammatory responses and promotes beneficial gut bacteria, including *Akkermansia*.*
- **LipiSperse® technology –** Advanced delivery technology designed to emulsify OEA and help make more OEA available to your body.* This helps support OEA's availability to key appetite, metabolic, and gut-health pathways.*
