

OmegAvail™ Hi-Po Liquid

FOUNDATIONAL HEALTH

3,000 mg 1:1 EPA+DHA

OmegAvail™ Hi-Po Liquid is a highly potent omega-3 fatty acid formula, delivering a total of 3,000 mg of EPA and DHA in a 1-to-1 ratio per serving. This product is optimal for supporting the foundational needs of eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA) for long-term supplementation.*

A balanced 1-to-1 ratio of EPA and DHA is similar to that found naturally in seafood, and when supplemented in an equal ratio, they do not have to compete for absorption in the body. Thus, such a ratio gives both EPA and DHA an equal opportunity to provide their benefits and optimize the tissues in the body that need these omega-3 fats the most.*

Omega-3 Fatty Acids

EPA — Supports healthy brain function, positive mental outlook, skin health, normal cholesterol metabolism, and a healthy inflammatory response*

DHA — Supports proper brain development and function, vision, normal triglyceride metabolism, eye development, cell membrane integrity, and a healthy pregnancy for expectant mothers*

Benefits*

- Supports cardiovascular health
- Promotes healthy lipid metabolism
- Promotes cell membrane health
- Supports neurological function and brain health
- Supports a healthy inflammatory response
- Supports joint health
- Supports skin, hair, and eye health
- Promotes positive mental outlook and mood balance

Recommended Use

Take 5 mL (approximately 1 teaspoon) per day with a meal or as directed by your health-care practitioner.

DeltaGold® is a registered trademark of American River Nutrition, LLC and is protected by US Patent Number 8,586,109.

Highlights

- Sustainably sourced Marine Stewardship Council (MSC)-certified wild Alaskan fish oils
- Convenient liquid delivery for serving size flexibility
- 3 grams (1,500 mg each of EPA and DHA) per 1 teaspoon liquid serving in a 1:1 ratio
- Contains vitamin E isomers (as DeltaGold® delta- and gamma-tocotrienols) for enhanced stability and protection from rancidity
- Contains lipase to support digestion and absorption*
- Triglyceride (TG)-bound omega-3 fish oils (as TruTG™) for enhanced bioavailability — the same form naturally found in fish
- Molecularly distilled and filtered to ensure purity and to maximize the removal of metals, pesticides, PCBs, and other contaminants
