

PaleoMeal® Plus

Bone Broth Protein and Greens & Fruit Blend

BODY COMPOSITION†

PaleoMeal® Plus is a nutrient-dense, low-glycemic supplement with complete protein, fats that may have health benefits, and nutrients that are predominantly in their bioidentical forms. It also features fruit and vegetable juice powders rich in polyphenols to support antioxidant status and help promote a healthy inflammatory response.* PaleoMeal® Plus is available in a delicious caramel flavor and features HydroBEEF™, a highly concentrated beef protein produced through an exclusive hydrolysis and ultra-filtration process that enables the protein to be hydrolyzed or “split” into a high concentration of functional peptides. Delivering protein in the form of peptides allows for faster absorption and assimilation.

HydroBEEF™ protein is sourced from animals raised in Sweden without hormones that are fed a diet free of genetically modified grains, grasses, hay, and ensilage. Beef protein is a complete protein containing all the essential amino acids, including good concentrations of leucine, lysine, methionine, and the collagen precursors proline and glycine. Protein supplementation may support a healthy body composition and exercise performance.* PaleoMeal® Plus also contains medium-chain triglycerides, glucomannan (a water-soluble fiber), essential vitamins and minerals, and fruit and vegetable juice powders rich in polyphenols for broad nutritional support.*

Benefits*

- Aids a healthy body composition
- Support for muscle building and repair
- Broad nutritional support
- Supports collagen-rich tissues
- Supports antioxidant status

Recommended Use

Mix 32 grams (approximately 2 scoops) in 8 ounces of water or any other beverage per day, or as directed by your health-care practitioner.
