

# PaleoZyme™

*Paleo-friendly Digestive Support*

GASTROINTESTINAL HEALTH

PaleoZyme™ is a paleo-friendly, low allergenic enzyme formulation designed to support proper digestive function.\* It is specifically formulated to aid in the digestion of protein, carbohydrates, and fats.\* It provides porcine-derived pancreatic enzymes, which are nearly bioidentical to human enzymes.\* This product also includes bromelain, a protein-digesting enzyme derived from the pineapple plant. Ox bile is also included to help support the emulsification and digestion of fats.\* The enteric-coated, delayed-release capsule protects the enzymes from being destroyed by stomach acid and pepsin, preserving their activity for the small intestine, where pancreatic enzymes are normally released and activated.\*

Pancreatic enzymes are instrumental in breaking down fats, carbohydrates, and proteins in foods. Only when these are properly broken down and absorbed can the body benefit from the nutrients they contain. Some individuals may not produce sufficient amounts of pancreatic enzymes, which can result in occasional gas or bloating, loose or greasy stools, or undigested proteins that can enter into the bloodstream. These intact proteins are a common trigger for what are commonly known as food sensitivities.

## PaleoZyme™ may benefit individuals with\*

- Insufficient production or secretion of pancreatic enzymes
- Conditions of the pancreas
- No gallbladder or insufficient bile production/release
- Fat malabsorption conditions
- Fat-soluble vitamin deficiencies
- Conditions associated with excess accumulation of immune complexes
- Food sensitivities or food allergies

## Recommended Use

Take 1 capsule 3 times per day with meals or as directed by your health-care practitioner.

## Highlights

- Does not contain major allergens
- Porcine-derived pancreatic enzymes
- Includes bromelain from pineapple
- Delayed-release, enteric-coated capsules for increased efficacy\*
- Includes ox bile to aid in emulsification of fats, which in turn supports improved absorption of dietary fat and fat-soluble nutrients\*
- Provides 8,000 USP pancreatic lipase to support fat digestion, the highest lipase concentration of all Designs for Health digestive enzyme formulas\*
- Formulated without hydrochloric acid and pepsin
- Free of grains, legumes, and dairy-sourced ingredients
- Suitable for individuals following a strict Paleo diet
