

Prenatal Pro™ Essential Bundle

Supports Prenatal Health*

PREKIT | 30 Day Supply

A mother's health before, during, and after pregnancy depends on getting the proper nutrients to support both her body *and* her growing baby. Pregnancy places increased demands for essential vitamins and minerals for energy production, bone strength, and fetal development, making proper nutrition more important than ever. The Prenatal Pro™ Essential Bundle is a comprehensive 30-day supply of three carefully designed formulas that provide essential prenatal nutrients, bone-supporting vitamins and minerals, and omega-3 fatty acids to help fill any nutritional gaps in mom's diet.* With bioavailable ingredients for optimal absorption, this bundle supports mom's well-being, the infant's brain and body development, and overall pregnancy health — so you can focus on what matters most.*

The products in the bundle should be consumed daily prior to conception, throughout the entire pregnancy, and post-pregnancy (particularly if breastfeeding) to nourish the mother, support her mental health, and deliver essential nutrition to the baby, too.*

WOMEN'S HEALTH*

Promotes prenatal and postnatal health*

Supports a healthy pregnancy and may help reduce the risk of preterm birth*

Supports healthy fetal brain and nervous system development*

Supports the formation of strong bones and teeth*

Promotes antioxidant status*

Supports healthy glucose metabolism and cardiovascular health*

JUST THE FACTS:

Compare supplement facts to the leading brands

● Prenatal Pro™

- A high-quality prenatal multivitamin/multimineral formula with bioavailable iron and other minerals, choline, vitamin A, vitamin C, and methylated folate and bioidentical B12 in clinically relevant amounts to support maternal health, a healthy pregnancy, infant's brain development, and optimal fetal growth.*
- Features the beneficial tocotrienol form of vitamin E, which helps promote antioxidant status more than the form commonly used in commercial prenatal supplements (tocopherols).*

● OsteoForce™

- A unique blend of highly absorbable calcium, magnesium, vitamin D, and vitamins K1 and K2 designed to help maintain strong bones, support skeletal development in babies, and replenish mineral stores postpartum.*

● OmegAvail™ Hi-Po

- Provides a high concentration of essential omega-3 fatty acids (EPA and DHA) in a 1-to-1 ratio, which promotes the infant's brain and eye development while supporting mom's cardiovascular and mental health and overall well-being.*

Recommended Use: Products can be taken in divided doses.

Prenatal Pro™: Take four capsules per day with meals, or as directed by your health-care practitioner.

Warning: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children who are 6 and younger. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

OsteoForce™: Take four capsules per day with meals, or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before using this product if you are taking Coumadin, warfarin, or other anticoagulant medications.

OmegAvail™ Hi-Po: Take two softgels per day with meals, or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before use if you are taking blood thinning medication or are planning to have surgery.
