UT Intensive™ Chewables

Healthy urinary tract support*

UTIC30 | 30 tablets

UT Intensive™ Chewables are designed to support urinary tract health and comfort, and promote microbial balance in the urinary tract.* Unlike cranberry juice or products containing isolated cranberry compounds, the cranberry extract in UT Intensive™ Chewables include the juice, skin, flesh, and seeds, providing the full range of naturally occurring cranberry constituents. These compounds have been shown to help limit the ability of unwanted bacteria to attach to the urinary tract lining.* D-mannose helps support the body's natural flushing of bacteria through normal urinary flow.* These complementary ingredients help maintain normal urinary comfort, frequency, and urgency.*

GLUTEN FREE FORMULA · DAIRY FREE FORMULA · SOY FREE FORMULA · VEGAN FORMULA · NON GMO INGREDIENTS

Recommended Use: Chew 2 tablets per day or as directed by your health-care practitioner.

Consult with your health-care practitioner about your specific circumstances and any questions you may have.

JUST THE FACTS:

Compare supplement facts to the leading brands

- **Cranberry Whole Fruit Extract —** Cranberries are one of the most widely studied and traditionally used remedies for supporting urinary tract health.* Made from the juice, skin, flesh, and seeds, this whole-fruit extract provides the full range of naturally occurring cranberry constituents. These compounds help limit the ability of unwanted bacteria to attach to the urinary tract.*
- **D-Mannose —** D-mannose is a type of sugar found naturally in fruits such as cranberries. It may help limit the ability of unwanted bacteria to attach to the urinary tract so they can be flushed out through normal urinary flow.*
- **Chewable Delivery —** Convenient, great-tasting, easy-to-take orange-flavored chewable tablets. Glucose-free, sucrose-free, and fructose-free. Does not contain artificial sweeteners or colors.

In addition to taking UT Intensive™ Chewables as directed, drink plenty of fluids, empty your bladder completely when possible, and work with your health-care practitioner to maintain healthy blood sugar metabolism. These healthy habits may help support urinary tract health.* Ask your health-care practitioner about **Designs for Health GI Spotlight™ functional wellness testing** to gain additional insight into your gut microbiome, which can impact urinary health.

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.**

Designs for Health Spotlight™ functional wellness tests are not diagnostic and are not eligible for coverage under Medicare, Medicaid, or medical insurance. DFH Spotlight testing must be ordered or authorized by a qualified health-care provider registered with DFH. Please reach out directly to your practitioner to express your interest in any of the Spotlight tests.
