VegeCleanse™

Comprehensive functional food powder for healthy detoxification*

VegeCleanse™ is a functional detoxification powder that contains quality macronutrients to fuel detoxification pathways, a full multivitamin/mineral complex for detoxification enzyme support, and high levels of antioxidants for safe detoxification. This formula also contains a comprehensive array of herbs to promote healthy liver function and elimination.*

VegeCleanse™ features a plant-derived pea protein isolate made from non-GMO (non-genetically modified) North American grown yellow peas. This low allergen, easy-to-digest pea protein formula does not contain dairy, gluten, and lactose. It mixes easily

Healthy detoxification may help to:*

- Support concentration
- Promote healthy digestion
- Improve occasional bad breath
- Support healthy energy levels
- Promote healthy joint function
- Support healthy skin and eyes
- Support proper weight management

with water or your favorite beverage to create a delicious drink with a smooth texture and pleasant berry-vanilla flavor. Distinguishing characteristics include an excellent array of amino acids– including high levels of BCAAs (branched chain amino acids), as well as non-detectable levels of harmful gastrointestinal lectins (not to be confused with lecithins). Lectins are found in plants such as grains, soybeans, and even in genetically modified foods. Evolutionary theory suggests that lectins evolved as a defense mechanism of the plant. Once ingested, lectins would cause gastrointestinal damage and upset which would deter the predator from eating the plant again, furthering the plant's ability to survive. Today, the concern is that the gastrointestinal damage from consuming lectins may reduce the absorption of vital nutrients.

The use of non-GMO, plant-derived pea protein in this formulation may have additional health benefits. Pea protein exhibits what is referred to as ACE inhibitory activity. ACE inhibitors (or angiotensin-converting enzyme inhibitors) help the body by supporting healthy blood vessels and blood volume. Thus, the pea protein in VegeCleanse™ may have a positive effect on the maintenance of normal blood pressure levels.* It may also have a positive impact on blood lipid (cholesterol) levels by stimulating healthy bile acid formation and excretion.*

VegeCleanse^{IM} is ideal for those who have allergies or sensitivities to gluten, dairy or other animal proteins, and for those who would like to support the liver while promoting safe detoxification. VegeCleanse^{IM} is fructose-free and is sweetened with the natural herb stevia.

Recommended Use: As a dietary supplement, mix 36 grams (approx. one scoop) in eight ounces of water or any other beverage per day, or as directed by your health care practitioner.

Consult with your healthcare practitioner about your specific circumstances and any questions you may have.
