

# Vitamin D3 Liquid

1000 IU Vitamin D3 + Vitamin K for Kids

Vitamin D3 Liquid is uniquely formulated to support healthy bones, normal growth, and healthy immune system development for kids.\* This formula contains clinically relevant amounts of both vitamin D as cholecalciferol (D3) and vitamin K as vitamin K1 (phytonadione). Current research suggests that the combined supplementation of both vitamins D and K can be more effective than either vitamin alone for both bone health and cardiovascular health.\*

Deficiencies in vitamin D are common in pediatric and adult populations.\* Evidence suggests that vitamin D3 can be more effective at raising and maintaining vitamin

## Benefits\*

- Supports healthy bones
- Promotes healthy immune system development
- Healthy brain development support
- Promotes normal musculoskeletal development

## Recommended Use

Children age 4 and above, take 0.5 mL (half a dropperful) per day or as directed by your health-care practitioner.

**Warning:** Due to the inclusion of vitamin K in this product, consult your health-care practitioner before using if you are taking Coumadin, warfarin, or other anticoagulant medications.

healthy bones\*

D levels in the body rather than vitamin D2.\* Studies have shown that supplementation with vitamin D may help promote bone development and a normal immune system in children.\*

As with vitamin D, vitamin K is a fat-soluble vitamin that supports bone health.\* It has been shown to support healthy bone density status in some kids.\*

Vitamin D3 Liquid provides 1,000 IU of vitamin D3 and 100 mcg of vitamin K1 per half-dropperful serving. The graded dropper provides a convenient method for flexible serving options.
