

BAR™

Finally, a **daily supplement** that raises the bar with top-quality functional ingredients to support your health goals.

Yes Whey!!!™

Whey protein with 2 g of creatine monohydrate to support athletic performance and skeletal muscle strength*

Elevate your performance with Yes Whey!!!™. Not only does it boast a delicious chocolatey oat milk crisp flavor, it is crafted with your fitness goals in mind. Because great taste and great gains can go hand in hand! Packed with 15 g of high-quality whey protein and milk protein isolates and 2 g of creatine monohydrate in every bar, you're giving your muscles the support they need for growth and strength.*

Creatine is one of the most researched supplements worldwide. Because creatine levels in the body decline with age, research shows it may help maintain lean muscle in men and women as they age.* Perfect for fitness enthusiasts, athletes, high-protein/low-carb diets, vegetarians, or anyone looking to build and maintain muscle mass.* After a tough workout, Yes Whey!!!™ may help support a speedy recovery, so you can get back to doing what you love.*

Say "Yes Whey!!!™" to a stronger, healthier you.

Unlike other mainstream bars, Fx Bars never use hydrogenated oils or trans fats, simple sugars (e.g., sucrose, high-fructose corn syrup), artificial sweeteners, synthetic colors, or additives. Allulose is the primary sweetener in Yes Whey!!!™, which is found in many sweet-tasting foods like figs, maple syrup, and raisins. It has only one-tenth the calories of sucrose (table sugar) and is ideal for anyone looking to minimize sugar intake.

Recommended Use

1 bar per day

Consult with your health-care practitioner about your specific circumstances and any questions you may have regarding this product.

Note: Contains dairy.
