

Aloe/200x™

Concentrated aloe extract for gastrointestinal support

Aloe/200x™ contains 500 mg of certified, organically grown aloe vera per capsule. The cool, thick, gel extract from the leaves of the aloe vera plant (*Aloe barbadensis*) has long been used to soothe irritated skin, especially from topical burns and sunburns. In the same way that aloe vera cools irritated and inflamed skin, it can also soothe damaged and inflamed cells along the gastrointestinal (GI) tract, particularly in the stomach and intestines. For this reason, aloe may be beneficial for supporting gastric health and helping with the discomfort associated with occasionally compromised bowel function.

Why choose Aloe/200x™?

It takes 200 pounds of the aloe vera inner gel fillets to make one pound of this product's nourishing aloe extract. Our formula is prepared using a low-heat dehydration method with no filtering, which ensures that the aloe compounds with the most biological benefits remain intact, and that as much of the plant's natural makeup is retained as possible.

Benefits

- Promotes a healthy inflammatory response in the skin and GI tract*
- Supports healthy tissue that lines the stomach*
- Promotes a healthy microbial balance in the GI tract*
- Helps slow the passage of material through the lower GI tract, potentially alleviating the unpleasant effects of occasional diarrhea*
- Exerts antioxidant properties, which may support a healthy balance of beneficial bacteria in the lower GI tract*

Recommended Use: As a dietary supplement, take one capsule per day, or as directed by your health care practitioner.

Consult with your healthcare practitioner about your specific circumstances and any questions you may have.
